

CCSD 89 - One Community Reading Together!

This school year begins our exciting new **ALL Community** Reading project. Students, Staff, and Parents will be reading selected books by author Sally Walker to:

- Promote Literacy
- Enhance Communication Skills
- Connect Elementary and Middle School Students
- Link Community
- Integrate Science, Social Studies and Art

Each month features a theme of History, Science or Biography. A choice of reading levels, K - 4 or 5 – 8, lets Students, Teachers and Parents read together and share their learning through the project website. Activities will include:

- Reading nights at Elementary schools with Middle School readers
- Guest Community Readers
- PTC facilitated Art projects

The project culminates April 15th with presentations by author Sally Walker. Multiple visits will take place during the day and a community presentation during the evening. Watch the District website and school newsletters for access to the project website and more program details or check our project wiki:
