2. Identify representatives to help present to the Board of Education.

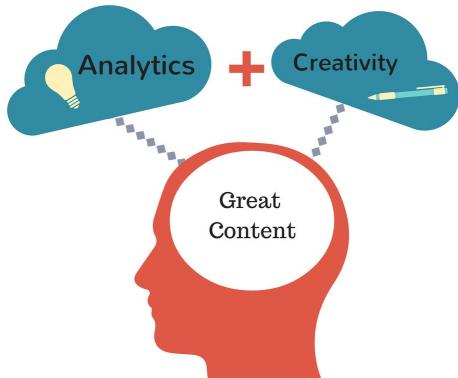

District 89 wants to provide students with a learning environment that is rooted in social emotional learning and also develops strong interpersonal skills in order to collaborate effectively with others. Students will communicate effectively, using a variety of communication styles and platforms. Learning will encourage students to take risks and work to creatively solve problems while developing analytical and critical thinking.

# Critical Strategies for Action

- 1 • We will implement with fidelity shared units of instruction aligned to Common Core or other state learning standards.
- 2 • We will increase rigor and challenge for all students to meet the needs of every student and close achievement gaps.
- 3 • We will set goals with clear measures and targets and use data to monitor and report progress: student, classroom, team/department, school and district.
- 4 • We will explore new ways of using time to create optimal learning and teaching opportunities that provide staff with time to collaborate and students with time to ensure growth and mastery of grade level learning outcomes.
- 5 • We will continue to study appropriate and effective ways of using technology that leads to enhanced learning and teaching and prepares our students for digital citizenship.
- 6 • We will address the impact of available financial resources on the quality of programs and services offered in CCSD 89 in an effort to keep our district a premier school district.
- 7 • We will improve social emotional learning in an effort to promote good self-concept and social awareness.
- 8 • We will communicate and collaborate with families and the greater learning community to establish trust, respect and pride in the district's performance.
