

## ABOUT OUR PROGRAM

Community Consolidated School District 89 Preschool provides programs for three-through-five-year old children.

The district offers preschool for children with and without special needs. The district's tuition-based offering educates children with special needs alongside their typically developing peers.

Each classroom is staffed with a certified early childhood teacher (with English Learning endorsement) and one teaching assistant. The preschool support staff includes: an occupational therapist, speech-language pathologist, physical therapist, social worker, and psychologist.

Our program utilizes Creative Curriculum® for Preschool. This is a research-based curriculum that features exploration and discovery as a way of learning - enabling children to develop confidence, creativity, and lifelong critical-thinking skills.
