CONSENT AGENDA – The consent agenda was approved as presented.

DISCUSSION ITEMS

Head Start (SP Goal: Student Achievement, Resources, Learning Conditions and Family & Community). Metropolitan Family Services Director, Nikki Cameron, provided an overview of the Head Start program. She reviewed eligibility, the selection criteria, curriculum, philosophy and services as well as staff/community development. The primary goal of the Head Start program is to ensure that children served have access to comprehensive quality services that promote healthy outcomes across all domains of development. The program is designed to service children who live within the CCSD89 community. The classroom has 17 spots and the district has well over 17 students who qualify for need. The cost of adding a Head Start preschool classroom is covered by Metropolitan Family Services.

Transition Report for 2018-2019 New School Attendance Areas (SP Goal: Student Achievement and Family & Community). Supt. Tammaru reported registration is underway with Kindergarten enrollment balanced at all four elementary schools. With the phased-in boundary change the impact of students leaving their current schools is not as great as originally anticipated. The district has worked with the PTCs to discuss the transition and developed some activities for welcoming new families.

Board Policy Review.

Supt. Tammaru reviewed selected policies. While most are annual policies, two specifically related to the five-year compliance review from the DuPage.
